Product Overview

In this issue of our brochure we present the powerful LED Bulb designed in nano-technology Philips Lumileds LED bulb where each LED diode light lumen is approximately 500 lumens of light, which sets it apart from others in the market. It is a two-sided LED bulb containing 4 LED ZES chips controlled by a driver called canbus. The input power supply is 12v - 24v (volts) and power is 25W (watts).

The advantage is in powerful bright and clear visible range, compared to the basic bulbs that can be found in local stores.

What does the set include?

- 2 (two) LED lamps

- 2 (two) LED drivers (canbus)

- 1 (hex key) for adjusting the LED lamp

- 1 product manual
